Our Few Success Stories

FortiGate Firewall Solution in National Medical Center

National Medical Center had required a Next Generation Firewall to protect their Network from Malware and Ransomware attacks. Also required a 24/7 support to have a seamless connectivity as they deal with a lot of sensitive data. Fortline proposed them comprehensive solution on FortiGate Firewall to replace their old Cisco and FortiGate Firewall with additional Backbone connectivity of 10Gb SFP+ to their core switches. Also Configured their all WAN links to single manageable node through SD-WAN.

VMware vSphere Deployment with VM nodes at Adamjee Life Assurance

Adamjee Life Assurance had required to expand their VM nodes for their application Servers of different domains like Payroll, Sales force, finance, etc. Fortline Private Limited proposed a solution on VMware with vSphere suite to implemented their Blade Servers and also configure replication of these VM's as well.

Lenovo Workstations Solution for CAD Designing in Pak Suzuki Motors

Pak Suzuki motors had to extend their CAD Designing machine nodes to enhance their production as design aspect. Fortline Private Limited proposed a solution Lenovo Workstations P520 with high end Nvidia Graphic Cards and extended core and memory support to fulfil their requirement. Future provisioning has also considered on this proposed solution.

DELL PowerEdge R750xs Servers Solution for ERP in High-Q Pharmaceuticals

In High-Q Pharmaceuticals, there is multiple of VM's has deployed for different applications. Now they were looking a Solution Partner who can help them to Size up and integrated their upcoming updated ERP. Solution Consulting team completely studies their requirement and not only given a precise Solution even also cut off the cost of solution than other vendors offered solution. DELL PowerEdge R750xs Servers had proposed and deployed their Datacenter for their ERP solution.

Comprehensive Cyber Security, Network Security and Data Center Compute Solution in Generation's School

Generation School required to revamp their core domains of IT to stand up with Next Generation features to ensure the data and Network Security. After the working, Fortline Private Limited proposed and successfully deployed FortiGate Firewall FG-401E NGFW Firewall to protect their Gateway level security and implement Active Directory and integrate it with Firewall. Also implement Kaspersky Endpoint Security solution for their 200 nodes to ensure inside the LAN as well. To cater up their applications, DELL PowerEdge R750xs Servers deployed in Datacenter to establish a centralized path for their on-perm applications.
